MODEL No: 0257

ISSUED: 1-87

REVISED: 8-04

APRON MOUNTED FACIAL TISSUE BOX HOLDER

SPECIFICATION

Apron Mounted Facial Tissue Box Holder shall be fabricated of 20 gauge corrosion protected steel. Unit shall accommodate a standard box of facial tissues behind a vanity apron (by others) for user-demand pull-withdrawal through a pre-cut slot (by others). Bottom door shall be held closed with a spring loaded hinge and shall be provided with a finger hole for easy grip when reloading.

Apron Mounted Facial Tissue Holder shall be Model N°0257 as manufactured by American Specialties, Inc., 441 Saw Mill River Road, Yonkers, New York 10701-4913

INSTALLATION

Center tissue box holder on apron towel cut-out. Pencil mark backside of apron to locate slots. Drill pilot holes to suit screws to be used, mount box and fasten with screws (by others).

OPERATION

Towels are self-feeding from loaded supply box until supply is depleted. Unit is reloaded with opened full box and first sheet is fed through apron slot to start.
