RECESSED BEDPAN AND STORAGE CABINET

SPECIFICATION

Recessed Bedpan and Storage Cabinet shall be fabricated of alloy 18-8 stainless steel, type 304, 20 gauge with N° 4 satin finish and be protected during shipment with a PVC film easily removable after installation. Cabinet doors shall be louvered and shall be double - pan construction with No-Flex core and shall have no exposed welded seams. Doors shall be hung on cabinet body with heavy-duty 3/16" (5 mm) dia. stainless steel multi-staked piano hinges and shall be held closed by two (2) magnetic catches. Unit shall hold two (2) conventional type bedpans. A fixed partition shall separate storage and bedpan sections of cabinet. Storage section shall have three (3) adjustable stainless steel shelves. Bedpan section shall have a fixed stainless steel shelf and two (2) 3/8" (10mm) dia. stainless steel rod bedpan holders. **Physical samples** of bed pans are required to check for proper fit.

Recessed Bedpan and Storage Cabinet shall be Model N° 0550 as manufactured by American Specialties, Inc., 441 Saw Mill River Road, Yonkers, New York 10701-4913.

INSTALLATION

For compliance with ADA Accessibility Guidelines, install unit so that top shelf is 54" (1372mm) maximum above finished floor (AFF) if clear floor side reach access is provided or 48" (1219 mm) maximum AFF is clear floor forward reach is provided. Secure recessed cabinet to wall with N° 10 self-tapping screws (by others) through concealed mounting holes.

Rough Wall Opening (RWO) required is..... 31" W x 31-1/2" H x 4-1/2" D (787mm x 800mm x 114mm).

OPERATION

Cabinet doors re held shut with easy opening magnet catches. Bedpans are vertically stored in the right hand side of the cabinet and are held in place by retainer bars. The left hand side of the cabinet is for storage of various items. Air can circulate through the top and bottom louvers by convection.
