TOWEL SHELF

ELEVATION

PLAN

SPECIFICATION

Towel Shelf shall be triple chrome plated and rust proof with four (4) equally spaced 3/8" (10mm) dia. tubes fixed between two brackets. A 3/4" (19mm) dia. tube shall be fixed between the two vertical posts to act as a towel bar. Concealed, adjustable screw mountings & non-breakable steel wall plates shall be provided. Shelf shall be tamper resistant by using hardened stainless steel screws to anchor brackets to wall plates.

Towel Shelf shall be Model N° 0709-C as fabricated by American Specialties, Inc. 441 Saw Mill River Road Yonkers, New York 10701-4913.

INSTALLATION

Unit is surfaced mounted to wall or partition using N°10 self tapping screws (supplied) through mounting holes in anchor brackets. Concealed screw mountings can still be adjusted once attached to wall. Ensure that mounting configuration complies with local building codes. Recommended mounting height is 66" (1676mm) from the top of shelf to finished floor. To comply with ADA Accessibility Guidelines top of shelf should be lower than 54" (1372mm) maximum above finished floor (AFF) if clear floor side reach access is provided or 48" (1219mm) max. AFF if clear floor forward reach access is provided or 46" (1168mm) max. AFF if side reach over an obstruction is only provided (ie: vanity).
