

# The American Institute of Architects (AIA) Continuing Education System

## AIA/CES Registered Provider Program Summary Handout

---

**Provider:** InfoSpec, Inc.

**Length:** 1 Hour

**Program#:** ASI10A

**Credits:**

1 AIA HSW CES LU

**Program:** Accessibility Disconnects in Toilet Room Design

**HSW:** Yes **ADA:** Yes

---

### Description

This course will better inform the designer on accessible elements of a multi-user toilet room. The designer will gain an understanding of toilet room compliance with applicable accessibility codes, regulations, and guidelines. We will review material types appropriate for toilet room use and issues related to usability, abuse, warranty and LEED and how this can improve occupant comfort, health and ease of use. It provides greater capability to optimize building design and aesthetics.

### Learning Objectives

Upon completion of this course, the design professional will be able to:

1. Identify and analyze accessible elements of a multi-user toilet room to determine compliance with applicable accessibility codes, regulations, and guidelines
2. Examine accessible components and review typical design and installation disconnects
3. Briefly review material types appropriate for toilet room use and issues related to usability, abuse, warranty and LEED.

### Method of Delivery

The course is offered to design professionals in a lunch and learn setting. The course is presented in PowerPoint.

### Cost to Participants

There is no cost for this program. The course is sponsored by the manufacturer and therefore is offered to design professionals at no cost.
